

Heart Study Information

HEART STUDY MOVES TO NORTH CAROLINA STATE UNIVERSITY

from Susan Murphy

[UPDATE: DOPPLER FORM DOWNLOAD](#)

We have been unable to retrieve the health clinic's Echo data from Bari Olivier. As you all know, the Health Committee asks the providers from each health clinic to send the data directly to the researcher in order to secure confidentiality, so only the researcher and the provider have the information.

I am making every effort to retrieve all the echo data from the health clinic providers. As you can see from the list below, I need help from the participants at the 2006, 2007 and 2008 clinics. You can help by sending a copy of your BT's echo report to Dr. Meurs.

2006 Boston - information unavailable from Dr. Morris. Clinic participants send your report to Dr. Meurs

2007 Gettysburg - information unavailable from Dr. Morris. Clinic participants send your report to Dr. Meurs

2008 Orlando - information unavailable from Dr. Spier. Clinic participants send your report to Dr. Meurs

2009 (no clinic)

2010 Pittsburgh - Dr. Sikorska sending echo data to Dr. Meurs

2011 Orlando - Dr. Spier sent ech data to Dr. Meurs

If you are doing Echo/Dopplers on your Bull Terriers and would like to participate in this study, send the reports to Dr. Meurs. All information in this study will be kept confidential.

Dr. Meurs is working on a new Echo/Doppler data form for your Cardiologist's use in recording and forwarding reports to the study. It will be available for download soon.

Kate Meurs
Assistant Dean - Research
College of Veterinary Medicine
1060 William Moore Drive
Raleigh, NC 27607

If you have any questions, or need more information regarding the submission of your echo report, please contact Susan Murphy at susan778@aol.com.
